PROFILE

Hi...

I am Web & Graphic Designer....

I build interactive websites that run across platforms and devices

I'm a Full-Stack Organized and Enthusiastic website developer with over 4 years of experience creating and maintaining functional, eye-catching websites. Proven record of collaborating with team members and clients effectively.

In previous role, utilized SEO optimization techniques to boost website traffic by 200%.

PORTFOLIO

2020 - PRESENT

I Training

Helping Companies to reach their goal by connecting all dots between Design & Code.

With ever-evolving web-standards, it's absolutely essential for any web design professional or an

agency to keep themselves updated with latest and the greatest in website front-end code. Whether it is tools, design patterns, or the 'best-practices'; I undertake extensive research and provide professional training to companies & individuals looking for ways to enhance their Website front-end development skills. I help them on their quest to nurture their website UI design skills. I also help print designers to transition to website design.

Some of the technologies I provide my consultation and training expertise are Adobe creative suit HTML, CSS, Python, JavaScript, SVG, Progressive Enhancement, Responsive Web Design and Art-Direction (in terms of SVG, HTML5 or CSS3).

The training session is usually done online or can be managed in a venue arranged by the client.

MY WORK

Feb - 2020

WEBSITE DESIGN & Graphic DESIGN

Since the beginning of my journey as a freelance Web & Graphic designer and developer over 5 years ago, I've done remote work for agencies, consulted for startups, and collaborated with talented people to create digital products for both business and consumer use.

I'm quietly confident, naturally curious, and perpetually working on improving my chops one design problem at a time.

WEB DESIGN

Feb – 2020

WEBSITE DESIGN MAGAZINE DESIGN

I design corporate websites, a tool that is very essential to promote services/products on web to businesses and institutions today.

I design websites for different institutions in various sectors like Real Estate, Health, Education, Manufacturing, Hospitality and Tourism as well as commodity retail. There are different types of website selection depending on the nature of work or client's requirement: Static, Dynamic, Micro, Portal and E-commerce.

Techonlogies I use Include: Wordpress(PHP), CSS for customization, Woocommerce, Frameworks (Laverel, Code Igniter etc.)
